had never had a municipal government with so much business and so little politics in it. "I would be happy if I could avoid some of the responsibilities," said the mayor, but I propose to work with my associates and the members of the club to the last moment and I feed confident that we will be successful in the county as we have been in the city.

"I would suggest," continued the speaker, "that on February 18 we hold a special gathering to commemorate the great victory that we won for El Paso a year ago; not to sneer or jeer at our opponents failure, but rather to commemorate our success.

"It would sive the opposition pleasure to see a break in this club, to see this man pull away and that man pull away, and in the course of human events they rather expected it. I beas judge for the proposed new federal district, which he was very certain would be created in the course of a short time.

Why Troops Are Taken Away.

Judge Leigh Clark presented for the consideration of the club the fact that there was a report current that a number of the companies were being removed from Fort Bitss at the request of Gen. Obregon; and that, if this were true, a request should be made of Washington through the senators of Texas, Arizona and New Mexico that these border towns not be stripped of their garrisons. He also asked for an investigation of why Gen. Obregon should make such a demand and why the United States should give it recognition.

The club will again meet on Friday.
